WRITING YOUR FAMILY VISION.

A tangible way to establish connection, accountability, and action towards your goals and values as a family.

Where to start?

The bible instructs that we are to, "write down this vision and make it clear, for the vision awaits an appointed time; it testifies of the end, and will not lie." Habakkuk 2:2 If God's word carries power in writing, our vision can carry power when written, and inspired by the leading of the Holy Spirit!

REFLECTION QUESTIONS

Start with reflection questions to get everyone thinking. Let each person answer, and try to stay focused on positive things. Don't use this as a time for correction for your children or spouse, but make it a safe place for connection.

- What do you value about our family/us?
- What would others say about our family/us?
- What is something you love doing together?
- Who is another family/couple you admire?
- What do you admire about them?
- What word do you think the Lord would use to describe our family/us?
- What makes you feel safe in our relationship/as a family?
- What kind of legacy do we want to leave?

Use the space below to identify some of the things you discussed.
